Email: yrajveerkumar@gmail.com

Summary: Analytical and results-driven data analyst with a proven track record of leveraging data-driven insights to optimize business strategies and drive meaningful outcomes. Possessing a strong background in statistical analysis, data visualization, and data mining techniques. I am skilled in utilizing advanced analytical tools and programming languages, such as Python and SQL, to extract, clean, and manipulate data for comprehensive analysis. With a keen eye for detail and a passion for uncovering trends and patterns.

SKILLS

- SQL
- Microsoft Excel/ PowerPoint
- Power BI
- Tableau
- Data Analysis
- Data Visualization
- Statistical Analysis
- Data Cleaning and Preprocessing
- MS Dynamics
- Google Spreadsheet

EXPERIENCE

Nielsen IQ

November 2021 to Nov 2023

Data Processing Analyst

Functional Responsibilities : Data Analyst

- Experience in analysing and synthesizing survey data for US based FMCG clients to analyse their sales performance and provide insights to improve their market share.
- Conducted data cleaning, data validation, and data quality checks to ensure accuracy of the data.
- Analysed point-of-sale data to identify trends and patterns in sales, market share, and consumer behaviour Leveraged technology to automate daily operational activities.
- Collaborated with cross-functional teams including sales, marketing, and finance to develop strategies to improve sales and market share.
- Identified opportunities for product innovation and expansion based on consumer trends and market insights.
- Handled a small team of 4 associates, trained them about process and guided to implement the strategies designed to achieve planned goals, tracking and monitoring team progress to ensure success

Randstad India Pvt Ltd

June 2021 to September 2021

Process Executive

I Was working for NVIDIA GRAPHICS as a position of process Executive. Responsible for all design and developing a new path for gaming. Responsible for scheduling team meetings for discussion of daily pipeline and achieving daily targets.

PROJECTS

Power BI Project

- Assessed the three datasets, evaluating their structure, content, and relevance to the project objectives.
- Conducted thorough data cleaning and preparation to ensure data accuracy, consistency, and proper formatting for analysis.
- Performed exploratory data analysis (EDA) techniques to uncover patterns, trends, and correlations within the datasets.
- Leveraged the power of Power BI to integrate the datasets, constructing a robust data model that facilitated efficient analysis and visualization.
- Designed and developed interactive dashboards and reports within Power BI, focusing on user-friendly interfaces and intuitive navigation.
- Utilized advanced features of Power BI, such as filters, slicers, and drill-through functionality, to enable in-depth exploration of the data and promote interactivity.

- Development of advanced BI solutions, enabling predictive analytics and data-driven insights.

Microsoft Dynamics 365 Project

Nov 2021 to 30 Aug 2023

The project involves the end-to-end implementation and optimization of Microsoft Dynamics 365 Finance and Operations (D365 F&O) for a large enterprise in the manufacturing sector. The objective is to streamline financial processes, enhance data analytics capabilities, and improve overall operational efficiency. As a Technical Consultant and Developer, your role is crucial in ensuring the successful design, development, and deployment of the Dynamics 365 solution.

- Collaborate with business stakeholders to gather and analyze their requirements related to financial processes, data migration, integration, and reporting needs.
- Evaluate existing systems (potentially AX2012) and design a roadmap for migrating and upgrading to the latest version of Dynamics 365 F&O.
- Design technical solutions using X++ for customizations, SSRS for reporting, and BI development for advanced analytics.
- Develop and optimize X++ application code, ensuring high performance and reliability.
- Implement complex data migration strategies using DIXF, third-party tools, and custom EXCEL/CSV programs.

ACHIEVEMENTS:

- Mentored and handled a team where I have trained juniors and moved to the process
 - Awarded as Best Employee of Month (Twice in year)
- Programming Languages: Python,
Databases: PostgreSQL, MySQL , Basic knowledge in Oracle.
Other Skills: Having the knowledge of Data analysis Lifecycle
Posse the quality of a good story teller
Team player with effective communication skills and proven abilities in resolving complex issues.

EDUCATION

Konark Institute of Science and Technology, Bhubaneswar (BPUT)

June 2016 to August 2020

Bachelor Of Technology (B.Tech)

- Electronics and Telecommunication Engineering
- Passed with grade of 7.66 CGPA

KB Collage

May 2014 to June 2016

Higher Secondary Certificate

- Passed with the main subject as PCM

St. Anthony's High School

April 2012 to May 2014

Secondary School Certificate

LANGUAGES

English (Professionals), **Hindi** (Professionals)
