- Hands on experience in UiPath Studio, UiPath Robot, UiPath Orchestrator, PowerAutomate Desktop and PowerAutomate Cloud.
- Worked on interfacing Power Automate with UiPath.
- Design and developed RE-Framework using Both Power automate cloud and desktop.

TECHNICAL SKILLS

- RPA Tools : UiPath || Power Automate Cloud and Power Automate Desktop
- Web development Tools: jQuery, HTML, CSS
- Programming Skills : C#.NET, VB Macro
- Scripting Languages : JavaScript
- Database : MySQL

PROFESSIONAL CERTIFICATION

- Completed the course of RPA Foundation Developer in UiPath Academy
- Completed the course of RPA Advanced Developer in UiPath Academy

PROJECTS HANDLED - JEEVAN TECHNOLOGIES (CHENNAI)

PROJECT 1 : AR TO DEFFERED RECONCILIATION APAC

- Understanding the business user requirement and PDD Developed the Process.
- Login to OAC Web Application using the user credential
- Apply the filter and download the Reports from OAC Application.
- Login to Oracle Application using the user credential
- Mandatory parameters need to be provided such as date, application name etc. in the application.
- Create or updating the employee/user details in the application.
- Based on the bot status such as success or failed, output file will be generated and download Reports from oracle application.
- Doing the excel manipulation based on business requirement.
- Sending the output report in mail through Outlook to the specified stakeholders.

PROJECT 2 : CREDIT LIMIT

- Understanding the business user requirement and PDD Developed the Process.
- Login to Orbit Web Application using the user credential
- Apply the filter and download the Reports from Orbit Application.
- Login to Oracle Application using the user credential, pass parameter, download currency reports and extract values from pdf based on the requirement.
- Downloaded Orbit report have transcation number, pass those transcation number into the oracle application and extract credit limit values from application.
- Check the creditlimt values are greater or equal based on the requirement.
- Sending the output report in mail through Outlook to the specified stakeholders.

PROJECT 3 : INVENTORY LEDGER (APAC AND EMEA)

- Understanding the business user requirement and PDD Developed the Process.
- Login to Oracle Application using the user credential.
- Close the current period and open the future period for each entity in oracle application both EMEA and APAC region.
- Download cost management report from oracle application.
- Update the output logfile as success or fail
- Sending the output report in mail through Outlook to the specified stakeholders.

QUALIFICATION

- Bachelor of Technology (Information Technology) from Noorul Islam Centre for higher education, Kanyakumari

DECLARATION

I declare that the above-mentioned details are true to the best of my knowledge.
