**Project Management Tool: JIRA**

## PROJECTS

---

### Leadway Pensure(Daily Valuation Report)

📅 09/2023 - 03/2024

Role: RPA Developer

Project Description: Generation of daily valuation reports to get or ascertain the unit price of funds.

Process Scope: Generation of daily price unit & generation of net asset value as at the date.

Process Output: Reports of the valuation.

Process Inputs: Posting of investment transactions, posting of other necessary transaction.

Process Resource: Moneytor.

---

### G-Suite Invoice

Role: RPA Developer

Project Description: The G-suite Invoice Generator project aims to automate the process of creating invoices on a monthly and yearly basis while incorporating IGST (Integrated Goods and Services Tax) and CGST (Central Goods and Services Tax) calculations.

#### Process Scope:

Data Collection: Clients provide data in an Excel sheet format, detailing their transactions on a yearly and monthly basis.

Invoice Template: A specific template for invoices is established, ensuring consistency and professionalism in the invoices generated.

Data Processing: The tool takes the data from the Excel sheet and performs the required calculations for IGST and CGST based on the provided transactions. It then populates the necessary fields in the invoice template with the calculated values.

Invoice Generation: Once the invoice is prepared, it is sent to the respective client, ensuring accuracy and promptness in the billing process.
