About Me

Motivated and dedicated Java developer with a strong foundation in programming principles. Skilled in Core Java, J2Ee, Spring Boot, Hibernate, HTML, CSS, JavaScript and MySQL. Dedicated about creating efficient and reliable applications. Eager to contribute to software development project.

Project

1. Portfolio

This project showcases an interactive web application developed using Java technologies. It offers a complete solution for building, managing, and interacting with a database-driven web application throughout its development process.

Technology used:

- Java: Main programming language for server-side application logic.
- JSP (JavaServer Pages): Used to create dynamic web pages.
- Servlets: Responsible for managing client requests and server responses.
- JDBC (Java Database Connectivity): Facilitates interaction with databases.
- MySQL: Database system for data storage and management.
- HTML/CSS/Bootstrap: Designing the user interface.
- JavaScript: Enhancing interactivity and client-side validation.

Education Background

● Java Full Stack Developer

2023-24, Green technology, Porur

Comprehensive training in in both front-end and back-end development using Java technologies.

● Bachelor of Degree

2020-23, Srinivasan college of Arts and Science, Perambalur.

Bachelor Degree of computer Science
