## Objective

I have 2.5 years of experience as an RPA developer. Automate Excel, PDF, Web based, Desktop based applications. using automation tools. I aspire to work in a professional organization in a quality technical environment, which enhances my knowledge and skills and allows me to use my knowledge, skills and experience for personal and professional growth.

## Education

### BACHELOR OF ENGINEERING (BE)

2018 – 2022 | Amravati, India

P.R.POTE PATIL COLLEGE OF ENGINEERING AND MANAGEMENT, AMRAVATI.

- Got a degree of bachelor's in computer science (CS) from **Sant Gadge Baba Amravati University, Maharashtra.**
- **Aggregate:** 8.67cgpa.

## TECHNICAL SKILL

- Technical skills :- **UiPath 2021.10.6 , 2022.10.6, Blue Prism 7.1.0**
- Database: **SQL Server Management Studio 2018**
- RPA Tools :- **UiPath, Blue Prism**
- HTML,CSS
- JavaScript,React-js
- PHP
- Codeignator(PHP framework)

## PROFESSIONAL PROFILE

### RPA Developer

#### AVPB DATA Matics Pvt Ltd

1 June, 2022 Present

Amravati, Maharashtra.

- 2.5 years of proficient experience as **RPA Developer. (UiPath)**
- Extensive experience in Automating Hospitality Domain and Insurance Domain Applications.
- Hands on experience in developing **BOTS using UiPath**
- Implemented the end-to-end execution for different processes using Attended and Non-Attended Bots.
- Automated **Excel, Web Based, Desktop, Email** based applications, **Document Understanding** using UiPath Tool.
- Well acquainted with RPA **Life Cycle, SDLC (Software Development Life Cycle).**
- Used Screen Scraping methods such as Full text, Native and **OCR engines like (MS OCR engines/Google OCR)** extracting bigger blocks of text, text position on screen, colour for and other granular information of text also have Basic knowledge of Document Understanding.
- Used Screen Scraping methods such as Full text, Native and OCR engines like **(MS OCR engines/Google OCR)** extracting bigger blocks of text, text position on screen, colour for and other granular information of text also have Basic knowledge of Document Understanding.
- Quick learner and excellent team player, ability to meet tight deadlines and work under pressure.
- Experienced in using **UiPath Studio, Orchestrator, Assistant.**
- Good experience in Screen, Data Scraping techniques.
- Done UiPath Foundation & Advanced Developer Course and Blue Prism Foundation Course.

## Project

---

### Project 1

#### **Project Title : Order-Bot Automation Ecommerce**

**Technology:** Ecommerce Domain

**Automation:** Email Automation, PDF Automation, Web Automation, Excel Automation.

- In this PDF automation RPA use case, a company receives purchase orders via email or online portals.
- The RPA bot monitors these sources, extracts order details, validates them, and enters the data into SAP automatically.
- Once deployed, the automation runs periodically, monitoring for any issues.
- 75 Hours per month across average 500 reports a day.
- Under-Writing Handling Insurance Web Automation Data Scrapping Underwriting needs assessing clients' risks and exposures and it usually takes more than 2-3 weeks to entangle, analyze and determine the risks involved before coming to a conclusion. Automation facilitates the automation of a process that involves data gathering from multiple external and internal sites, hence minimizing the time for consumed underwriting.

### Project 2

#### **Project Title : HR Resume Sorting**

**Domain : Human Resource**

**Technology:** PDF Automation, OCR Automation, Google Sheet Automation ,Email Automation, API Integration.

- The HR Resume Sorting RPA project aims to streamline the recruitment process by automating the initial screening of resumes received via email.
- Incoming resumes are parsed and sorted based on predefined criteria such as designation, experience, qualifications, and skillset. The RPA bot extracts relevant information from emails and compares it against a Google Sheets tracker containing required criteria. Resumes meeting the criteria are organized into appropriately labeled folders.
- Once sorted, the bot notifies the hiring manager via email, providing access to the sorted resumes for final candidate selection.

### Project 3

#### **Project Title: RPA-Bot Patient Data Collections**

**Domain: Healthcare Domain**

**Technology:** Data Entry Automation, PDF Automation, Excel Automation

Web Automation, Email Automation

- In this project, automation is implemented in various administrative tasks.
- The RPA bot collects patient information from various sources, validates and updates EHR, and ensures data completeness. It extracts relevant data from medical documents, such as lab results and prescriptions, and accurately enters them into the EHR system.
- The bot automates appointment scheduling by checking patient availability and clinic resources, sending confirmation notifications to patients. Additionally, billing and claims processing are streamlined by automating billing information, invoice generation, insurance verification and electronic claims submission, speeding up reimbursement.
- 150+ Hours per month across all processes.
- **Benefits:** Reporting and analytics automation further enables data-driven decision making by aggregating and analyzing data from multiple sources, providing insights into key performance indicators, patient demographics, revenue trends and resource utilization.

### Project 4

#### **Project Title: Banking Data**

**Domain: Banking**

**Technology:** Web Automation ,Email Automation.

- Handling disputes in the Banking space has also been an area of concern where there is a numerous number of human beings involved where the rules that are already laid out can be sufficient enough for the RPA software robots to take up the responsibility and get going with the process.
- Banks might start working on this as a pilot with a limited number of personnel only to look after or monitor the situation and make the necessary suggestions to the existing process of dispute handling by the RPA software robots.
- **Benefits:** Faster resolving of problems, Archives immense customer satisfaction ,Instant services ,Improved process

## PERSONAL DETAILS

---

**Date of Birth :** 13/05/2001

**Nationality :** Indian
