WORK EXPERIENCE

Tata Consultancy Services

Blueprism RPA Developer

April 2021 - Present, Bangalore

Client:

Working on a project for the Commonwealth Bank of Australia (CBA), leading financial institutions known for its innovation and extensive customer .

Roles and Responsibilities:

- Technical Skills:

- Proficient in using BluePrism Object Studio and Process Studio to develop process bots for desktop, web-based, and mainframe applications.
- In-depth knowledge of dynamic attributes, multi Bot Architecture, environment Locking, exception Handling, exception blocks, debugging, logging and credential Management.
- Experienced in control room operations, sessions management, work queues and tag filtering.

- Application Spying Modes:

Skilled in Win32, Access, Region and HTML modes.

- Troubleshooting:

Collaborate with business stakeholders to identify, analyze and efficiently resolve defects,ensuring smooth operations.

- SDLC:

Engaged in idea, discovery, development, testing and warranty phases, ensuring comprehensive involvement throughout the project lifecycle.

- Deployment Checklist:

Expertise in packaging and releasing code for seamless deployment across various environments, ensuring smooth integration and implementation.

- Change and Problem Management:

Utilized ServiceNow for managing change requests and incidents, ensuring efficient tracking and resolution.

- Documentation:

Skilled in creating and managing Project Design Documents (PDD), release notes, and other project documentation using Agile tools like Jira and Confluence.

- Process Automation and Error Reduction:

Successfully automated manual processes using the Blue Prism RPA platform, including a key manual workflow performed by the business. This automation reduced manual efforts by 50 percent and decreased customer complaints effectively.

- Technical Support and Process Migration:

Provided extensive technical support for RPA bots developed in the .NET framework, including API configuration, server connections, and database query execution. Proficient in debugging bot executables to address defects and ensure seamless operations.

Certifications

- Blue Prism Developer Certification (AD01)
- AWS Cloud Practitioner Certification

SUMMARY

Motivated and dedicated Blueprism developer with 3 years of experience in designing, developing and deploying robust RPA solutions. Proficient in process design, object development and integrating RPA Solutions with existing systems. Demonstrates strong analytical and problem-solving skills committed to delivering high-quality, scalable RPA solutions. Eager to contribute to impactful RPA development Projects.
