SUMMARY

Around 3 years of experience in RPA automation. Proficient in utilizing tools for integration testing and automation. Skilled in testing the workflows and execution of RPA bots. Collaborating and communicating with the other team and experts to understand the deliverables.

TECHNICAL SKILLS

Languages : Java, Python, HTML, CSS, JavaScript, VB.Net

Databases : PostgreSQL, MySQL

Tools : Selenium WebDriver, TestNG, Postman, HCL AppScan, Ldap, SSO, ServiceNow, OAuth, SMTP, UiPath

EXPERIENCE

Atos-Chennai (May 2021 – present)

RPA UiPath, Selenium:

- Experienced in uipath have worked on uipath assistant and uipath orchestrator. Experienced in building RPA solution using uipath.
- Implemented end to end automation solutions as per requirements which involves analyzing, designing, development, testing, deployment of automation
- Designed workflow on uipath for state machine real time scenario in loan data management.
- Designed sequence workflow for screening three resume and uploading it into the queue. Designed sequence workflow for online purchasing website and explored on selectors and anchor tag
- Worked on get outlook mail message and imap activities. Designed and implemented custom activities and workflows in UiPath Studio.
- Have explored activities and validating the selectors.
- Developed robotic bots using RE framework
- Used UiPath orchestrator for deployment, managing and monitoring the robots
- Experienced in working with dispatcher and performer
- Worked on automation framework and execute test cases efficiently
- Developed test scripts using selenium webDriver in java to test the functionality. Execute the test scripts and reported the bug. Collaborated with team members to ensure the test coverage and the bug resolution
- Performed rest API testing using postman. Proficient in creating and executing the test suites to ensure the functionality, reliability, and performance of web APIs
- Using Jmeter performed Load testing for OAuth workflows execution. Experience in functional, regression and system testing using manual and automated testing tools – selenium webDriver
- Conducted regression testing to ensure the changes made are working defect free. Documented test results and added comments
- Experienced in writing xpath to locate web elements
- Utilized Selenium Web Driver to automate regression test suites. Integrated SMTP testing to ensure proper functionality of email features. Sending mail through smtp via workflows as well as performed system alerts for the invalid user login and sending the alerts through smtp mail server

- Developed and executed automated test scripts using Selenium. Integrated ServiceNow with third party applications using rest web services
- provided end user training and provided support for service now application ticket creation
- Executing the Incidents created on ServiceNow via rest call using postman application
- Creating and executing the automation workflows by using the dedicated work item.
- Experienced in creating the testcases and documenting the test scenarios. Participated in scrum ceremonies like daily stand-up call and sprint planning. Provided support during the User Acceptance Testing

AUTHENTICATION(Manual Testing):

- Led the integration testing efforts for LDAP authentication and authorization mechanisms using apache directory.
- Designed and executed test cases to validate LDAP integration
- Developed comprehensive test plans and test cases to validate SSO implementations, including SAML (Security Assertion Markup Language), OAuth.
- Designed and executed end-to-end SSO testing scenarios to verify user authentication workflows, session management, and access control policies.
- Scanning the product using hcl app scan go for generating the oss and static report. Replacing the vulnerable jars using jar upgradation and testing the product after jar upgradation for functionalities

EDUCATION

Vellore Institute of Technology (VIT)
Bachelor of Computer Applications (BCA)
 Year- 2015-2018

CGPA – 8.1

Vellore Institute of Technology (VIT)
Master of Computer Applications (MCA)
 Year- 2018-2020

CGPA – 8.4
