Highly motivated and passionate student seeking an entry-level position in the field of Computer Science. Eager to contribute to real-world projects, gain practical experience, and learn from seasoned professional in a dynamic team environment.

## PROFESSIONAL EXPERIENCE

Vyugam Solutions, Hosur- Summer Intern

Jun 2023 – Jul 2023

- Contributed to various aspects of web development, employing a skill set encompassing HTML, CSS, MySQL, and Codeigniter.
- Communicated with other team members regarding project status and issues as they arise.

## EDUCATION

Government College of Engineering Bargur, Krishnagiri

2020 - 2024

BE: Computer Science and Engineering, 87.20

Government Higher Secondary School Muthugapatti, Namakkal

2019 - 2020

HSC, 79.83

Government Higher Secondary School Muthugapatti, Namakkal

2017 - 2018

SSLC, 89.8

## SKILLS

- Python, C and Java
- SQL
- Data Structures & Algorithms
- Object-oriented programming
- HTML, CSS, JavaScript and CodeIgniter
- Problem solving
- Django
- Git and GitHub
- Machine learning and Data science knowledge
- System design knowledge
- Team Work, Communication and Adaptability
- Dedication and Commitment

## CERTIFICATIONS

- Data Structures and Algorithms, Udemy – Jan 2024
- Django Complete Course, Udemy – Aug 2023
- Certified Python Developer, Udemy - Jun 11 2023
- Data Science and Machine learning, Infosys - Nov 2022
- Problem Solving (Basic), HackerRank
- SQL | Object-oriented programming | System Design, FreeCodeCamp

## ACCOMPLISHMENT

- Solved 200+ intricate problems on [LeetCode](#), earning a 5-star rating in [Hackerrank's](#) Problem Solving category, showcasing adept algorithmic skills and commitment to continuous learning.
- Secured school first in HSC examination.
- Fluent in English, Tamil, and Kannada, facilitating effective communication in diverse teams.

## PROJECTS

- Real estate platform with integrated price prediction | Technologies used: Python, Django, ML, MySQL | [Link](#)
- Diabetes Prediction web application | Technologies used: ML, Streamlit | [Link](#)
- Library Management System | Technologies used: HTML, CSS, PHP and Codeigniter | [Link](#)
