PROJECT

Insurance Insights Dashboard

Description:
Developed an interactive insurance claims and customer insights dashboard to provide comprehensive analysis of claims data, customer demographics, and policy performance.

Responsibilities:

- Collected and prepared data from multiple insurance systems using SQL.
- Designed and developed Tableau dashboards to visualize claims frequency, loss ratios, and customer demographics.
- Conducted data analysis to identify trends and provide actionable insights.
- Collaborated with insurance stakeholders to gather requirements and provided training on dashboard usage.

Tools : Tableau Desktop, Tableau Server, SQL, Excel

eCommerce Sales and Customer Insights Dashboard

Description:
Developed an interactive eCommerce sales and customer insights dashboard to provide comprehensive analysis of sales performance, customer behavior, and marketing effectiveness.

Responsibilities:

- Collected and prepared data from multiple eCommerce platforms using SQL .
- Designed and developed Tableau dashboards to visualize sales performance, conversion rates, and customer behavior.
- Conducted data analysis to identify trends and provide actionable insights.
- Collaborated with eCommerce stakeholders to gather requirements and provided training on dashboard usage.

Tools : Tableau Desktop, Tableau Server, SQL, Excel

Financial Performance Dashboard

Description:
Developed an interactive financial performance dashboard to provide real-time insights into key financial metrics for strategic decision-making in the finance department

Responsibilities:
- Collected and prepared data from multiple financial sources using SQL.
- Designed and developed Tableau dashboards to visualize revenue, expenses, and other financial metrics.
- Conducted data analysis to identify trends and KPIs, providing actionable insights.
- Collaborated with finance stakeholders to gather requirements and provided training on dashboard usage.

Tools : Tableau Desktop, Tableau Server, SQL, Excel
