SUMMARY

Analytical and detail-oriented professional with experience as an Analyst Trainee. Proficient in gathering and analyzing data, identifying trends, and providing valuable insights. Strong problem-solving skills and ability to work collaboratively in cross-functional teams. Seeking a transition into the role of Software Developer to apply technical expertise, coding skills, and passion for developing innovative solutions.

WORK HISTORY

Project 1 : TIC- TOC-TOE
November 2019 -February 2024
· Classic two-player game on a 3x3 grid.
· Players mark cells with "X" or "O" to form rows.
· User-friendly interface for moves on an empty cell.
· Game logic monitors state, checks for wins, and ends.
· Player interaction captures and validates moves.
· Winning conditions include horizontal, vertical, or diagonal rows.

Project 2: Centralized-college-Database
December 2019 - January 2024
· Detailed database storing college information.
· Intuitive interface for easy data interaction.
· Role-based access control for user permissions.
· Efficient search and retrieval features.
· Robust database structure supporting varied data types.
· User-focused design ensuring seamless interaction.
