Summary

- Creative, resourceful Data Analyst with 1 + years of experience in IT Industry
- Expertise in Data Management, Data cleaning, Data Transformation and Validation

Skill Highlights (Expert Level)

• Data Analyst	• Power Platform Developer	• Communication Skills

Software Skill Highlights (Expert Level)

• SQL	• Advance Excel	• Power BI
• Numpy	• Python	• Panda
• Power Apps	• Power Automate	• Share point
• AWS	• Hadoop	• HIVE
• PySpark		

Experience

Data Analyst and Power Apps Developer   *Mar'23 to present*
Sidhman Technologies, Nashik, India

Key Result Area –
As Data Analyst -

- Strong data interpretation and problem-solving skills

- Hands on experience in data cleaning, transformation and validation

- Database management skills on SQL, Advance Excel and Power BI

- Creating insightful visualizations to communicate findings

- Translating complex data into easy-to-understand visuals

- Experience with data cleaning, transformation, and validation

As Power Apps Developer –

- Assisted in gathering and analyzing user requirements to ensure effective application design

- Developed and maintained Power Apps applications, ensuring functionality, performance, and user experience met or exceeded project requirements

- Participated in code reviews, providing constructive feedback to enhance code quality and adherence to best practices

- Familiarity with data connections, data sources, and data modeling within Power Apps

Projects -

Transportation Business Expansion SQL, Power BI, Excel
- Led data analysis initiatives to identify key trends and patterns in transportation data, resulting in a 15 Percentage
- Increase in route optimization efficiency
- Implemented predictive modeling to forecast demand, reducing excess capacity costs by 10 Percentage
- Conducted market research and analyzed customer behavior data to recommend optimal routes for expansion, contributing to a 20 Percentage increase in service coverage.

IT-Asset Management Power Apps, Power Automate, Sharepoint
- Leverage my expertise as a Power Apps developer to design and implement a robust IT Asset Management application
- streamlining asset tracking and management processes for enhanced efficiency.
- Spearheaded the development of a customized IT Asset Management application using Power Apps, resulting in a 30
- Percentage reduction in asset tracking errors.

Education

- Full-Time **B.E.** (Civil Engineering) from the University of Pune in 2018
- Full-Time Diploma in Civil Engineering 2015
- Class X – Maharashtra Board 2012
