EDUCATION

- ● ● B.Tech. Computer Science & Engineering | J.C Bose University of Science and Technology, YMCA | Faridabad | 2021
- ● ● 12th | Board | Rawal International School | Faridabad | 2017

CERTIFICATIONS

- ● ● GenAI | Google | 2024
- ● ● Data Analytics & Visualization | 2024
- ● ● Data Science BCG | 2024
- ● ● Python for Machine Learning with Numpy, Pandas & Matplotlib | 2021
- ● ● Python with Data Science, Machine Learning and Artificial Intelligence | 2021

CORE COMPETENCIES

- ● ● Data Science
- ● ● Business Analysis
- ● ● Requirement Gathering
- ● ● Predictive Modelling & Machine Learning
- ● ● Software Development Lifecycle
- ● ● Go-live Support
- ● ● Data Modeling
- ● ● Programming
- ● ● Data Warehousing
- ● ● Business Intelligence
- ● ● Documentation
- ● ● Agile/ Scrum Methodologies
- ● ● Data Visualization

TECHNICAL SKILLS

- ● ● Python
- ● ● Numpy
- ● ● Pandas
- ● ● MS Excel
- ● ● AWS
- ● ● SQL
- ● ● Cloud
- ● ● Spark Solutions
- ● ● Confluence
- ● ● Pipeline
- ● ● Jira
- ● ● Tableau
- ● ● Tensorflow

SOFT SKILLS

Communication | Enthusiastic
Analytical | Team Management
Adaptability | Problem-solving

PERSONAL DETAILS

- ● ● Date of Birth: 7th February 1999
- ● ● Languages: English and Hindi
- ● ● Address: Faridabad, Haryana-121004

JASBEER

PROFILE SUMMARY

- Previously worked as an **Application Development Associate at Accenture.**
- Expertise in **data analytics and interpretation** in the technology sector.
- Comprehensive understanding of the concept of **Data Science - Advanced Analytics, Predictive Modeler, Machine Learning Algorithm.**
- Expertise in conducting **full lifecycle analysis** including **data gathering & cleansing,** deep dive advanced **statistical analysis** & recommendations to optimize performance.
- Providing **data-driven, action-oriented solutions** to challenging business problems.
- Possess robust foundation in **statistics, programming & data analysis,** complemented by practical experience in applying Machine Learning Algorithms to address real-world challenges.
- Proficient in **programming languages such as Python,** with a strong interest in utilizing **data visualization tools like Tableau.**

WORK EXPERIENCE

Accenture | Gurugram | Application Development Associate | Sep'21-Dec'23

Key Result Areas:

- Spearheaded the development & deployment of robust data collection systems and analytics solutions.
- Interpreted data findings, employing advanced statistical techniques, and delivered comprehensive reports on an ongoing basis.
- Sourced data from primary and secondary sources, maintaining databases and data systems for optimal accessibility and reliability.
- Recognized, scrutinized and interpreted trends and patterns within complex datasets, facilitating informed decision-making processes.
- Utilized data visualization tools like Tableau to present insights effectively.
- Crafted and augmented SQL queries for efficient extraction, transformation and loading (ETL) of data from diverse sources for analytical purposes.
- Performed routine data validation and quality assurance checks to uphold the precision and integrity of analytical outcomes.
- Played a pivotal role in preparing & delivering insightful reports, dashboards, and data-driven endorsements to clients and internal stakeholders.
- Collaborated closely with clients to understand their unique business needs and translated them into actionable data requirements.
- Mapped client's requirements, performing system analysis and finalization of technical / functional specifications and high level design documents for the project.
- Analyzed & processed complex data sets using advanced querying, visualization & analytics tools.
- Identified, measured & recommended improvement plans for KPIs for all business areas.
- Organized workshop for business users for User Acceptance Testing (UAT); designed go-live PPTs and user training manuals.

Highlights:

- Implemented data visualization techniques resulting in a **25% increase** in data-driven decision-making efficiency.
- Led a data validation initiative, ensuring a **20% improvement** in the accuracy and reliability of analytical results.
- Contributed to the enhancement of reports and dashboards, resulting in a **20%** increase in client engagement.

PERSONAL PROJECT

Data Analysis for Leading Brazilian Retailer

Description:

- Performed extensive data analysis for a leading Americas retailer, concentrating on their operations in Brazil.
- Utilized SQL to extract actionable insights, thereby refining business strategies.
- Delved into the dataset to uncover crucial information regarding data types, customer demographics, and emerging trends.
- Identified noteworthy e-commerce patterns, including seasonal fluctuations and consumer purchasing behaviors.
- Analyzed order patterns to visualize regional distribution & assess the economic impact.
- Explored sales dynamics, delivery timelines & preferred payment methods to facilitate strategic enhancements.
- Facilitated enhancements in marketing, supply chain management & customer service, enhancing satisfaction levels & operational efficiency for superior business performance.
