- Mechanical

WORK EXPERIENCE

Software QA Tester
PLC Technologies, Chennai.

02/2023 - Present,   *MANUAL AND AUTOMATION TESTING*

Project : [E-commerce Platform Domain]

Roles and Responsibilities:
- Collaborated with the development and product teams to understand requirements and covering both manual and automated testing approaches.
- Created comprehensive test scenarios and test cases based on functional and non-functional requirements, ensuring thorough coverage of the B2B e-commerce platform's features.
- Executed manual test cases to identify defects and ensure the website's functionality, usability, and compatibility across different browsers and devices.
- Performed Smoke, Regression and Retesting.
- Conducted regression testing after each code change to ensure that new developments do not negatively impact existing features or functionalities.
- Identified, reported, and track defects using a bug tracking tool (Jira) to clearly documenting steps to reproduce, expected behavior, and actual behavior of the application.
- Developed and maintained automated test scripts using testing frameworks like Selenium Webdriver, TestNG, POM to increase the efficiency and coverage of regression testing.
- Executed automated test scripts to efficiently validate repetitive test cases, improve test coverage, and provide faster feedback to the development team.
- Enhanced the Selenium Test cases for Cross browser testing.
- Prepared Test Reports and submitted the bug findings.

SKILLS

Core java   Manual Testing   Automation Testing
Eclipse IDE   Selenium webdriver   TestNG
POM   Maven   Jira   Agile Methodologies

PERSONAL PROJECTS

Air Lankan Airlines
- In this Project used Java TestNG test script for automating various interactions with the Air Lankan Airlines website.
- It utilizes the Selenium WebDriver to perform actions such as navigating to different pages, clicking on elements, scrolling, and entering information into form fields.
- Organized into separate test methods, each representing a specific test scenario related to different aspects of the website.
