PROFESSIONAL SUMMARY

As a Fullstack MERN Developer,I specialized in developing dynamic web applications using MongoDB, Express.js, React.js, and Node.js. I designed RESTful APIs for seamless integration, conducted rigorous code reviews and testing to ensure high reliability, and optimized database schemas for enhanced efficiency. Collaborating effectively in agile environments, I delivered projects on schedule, exceeding client expectations through innovative solutions and continuous learning in emerging technologies.

PROFESSIONAL EXPERIENCE

Baranwal Consultancy and Services(Pune,Maharashtra)   APR 2024 – PRESENT

Fullstack MERN Developer Intern

- Developed & Deployed: Created dynamic web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- API Implementation: Designed and integrated RESTful APIs, enhancing functionality and third-party integrations.
- Code Quality: Conducted code reviews, debugging, and unit testing to ensure high-quality, reliable applications.
- Database Management: Contributed to database schema design, ensuring data integrity and efficiency.
- Team Collaboration: Worked closely with cross-functional teams in a fast-paced, agile environment.
- Continuous Learning: Stayed current with emerging technologies and industry trends.
- **Key Achievements:**
  - Impactful Solutions: Delivered innovative and effective solutions on real-world projects.
  - Skill Enhancement: Improved problem-solving and analytical skills through hands-on experience.
  - Agile Efficiency: Improved team collaboration using Agile/Scrum methodologies.
  - Quality Assurance: Ensured robust application performance through comprehensive testing.
  - Client Satisfaction: Contributed to high client satisfaction with effective project delivery.

SKILLS

Languages	:	Java, C/C++, JavaScript, SQL
Front End	:	HTML5, CSS, Bootstrap, Angular, React js
Back End	:	JDBC, Servlet, JSP, Apache Tomcat, Spring, Spring Boot, REST, PHP, Nodejs
Databases	:	MongoDB, Oracle, MySQL,Excel
Tools	:	Git, GitHub, Postman, Figma

PROJECTS

Dictionary Project   JAN 2024 - FEB 2024

- Key Features: Secure authentication, word management (add, delete, update, search), dynamic search.
- Contributions: Architected robust authentication, integrated JDBC and Servlets for seamless backend operations and ensured data security and persistence with MySQL.
- Outcome: Demonstrated professionalism and technical proficiency in delivering a user-centric web application.
- Tech Stack: Utilized HTML, CSS, JDBC, Servlets, Core Java, and MySQL.

Chat with AI Bot   DEC 2022 – APR 2023

- Developed an AI-powered chatbot with natural language processing capabilities.
- Implement a login/signup page to allow users to access personalized features.
- The chatbot will interact with users, provide information, and answer queries based on input.
- Tech Stack: React, HTML5, CSS, Bootstrap5, NodeJS and MongoDB.

CERTIFICATION

- **Certification in Full Stack JAVA Web Development** with expertise in C programming, SQL/NoSQL databases, Java frameworks, Core Java, Angular Js, React Js and a focus on high-quality solutions.
- **CDAC Post Graduation in Advanced Computing Certification**, providing expertise in advanced computing technologies, encompassing programming fundamentals, OOPs principles, advanced Java data structures, database technologies, web programming methodologies, and MS.Net technologies for comprehensive skill-building in software development.
